

shall not issue the license or permit until the requirements of this subpart have been satisfied, unless the Director disapproves the State agency's request to review the activity.

(c) The Federal agency and the applicant have 15 days from receipt of the State agency notice to provide comments to the Director regarding the State agency's request to review the activity. The sole basis for the Director's approval or disapproval of the State agency's request will relate to whether the proposed activity's coastal effects are reasonably foreseeable. The Director shall issue a decision, with supporting comments, to the State agency, Federal agency and applicant within 30 days from receipt of the State agency notice. The Director may extend the decision deadline beyond 30 days due to the complexity of the issues or to address the needs of the State agency, the Federal agency, or the applicant. The Director shall consult with the State agency, the Federal agency and the applicant prior to extending the decision deadline, and shall limit the extension to the minimum time necessary to make its decision. The Director shall notify the relevant parties of the expected length of an extension.

(d) If the Director disapproves the State agency's request, the Federal agency may approve the license or permit application and the applicant need not comply with the requirements of this subpart. If the Director approves the State agency's request, the Federal agency and applicant must comply with the consistency certification procedures of this subpart.

(e) Following an approval by the Director, the applicant shall amend the federal application by including a consistency certification and shall provide the State agency with a copy of the certification along with necessary data and information (*see* §§ 930.58, 930.62 and 930.63). For the purposes of this section, concurrence by the State agency shall be conclusively presumed in the absence of a State agency objection within six months from the original Federal agency notice to the State agency (*see* paragraph (a) of this section) or within three months from receipt of the applicant's consistency certification and

necessary data and information, whichever period terminates last.

(f) The unlisted activity procedures in this section are provided to ensure that State agencies are afforded an opportunity to review federal license or permit activities with reasonably foreseeable coastal effects. Prior to bringing the issue before the Director, the concerned parties should discuss coastal effects and consistency. The applicant can avoid delay by simply seeking the State agency's expeditious concurrence rather than waiting for the Director's decision. If an applicant, of its own accord or after negotiations with the State agency, provides a consistency certification and necessary data and information to the State agency, the review shall be deemed to have received the Director's approval, and all of the provisions of this subpart shall apply and the State agency need not request the Director's approval. If an applicant for an unlisted activity has not subjected itself to the consistency process within the 30 day notification period contained in paragraph (a) of this section, the State agency must adhere to the unlisted activity review requirements of this section to preserve its right to review the activity.

§ 930.55 Availability of mediation for license or permit disputes.

In the event of a serious disagreement between a Federal and State agency regarding whether a listed or unlisted federal license or permit activity is subject to the federal consistency requirement, either party may request the OCRM mediation or Secretarial mediation services provided for in subpart G of this part; notice shall be provided to the applicant. The existence of a serious disagreement will not relieve the Federal agency from the responsibility for withholding approval of a license or permit application for an activity on an approved management program list (*see* § 930.53) or individually approved by the Director (*see* § 930.54) pending satisfaction of the requirements of this subpart. Similarly, the existence of a serious disagreement will not prevent the Federal agency from approving a license or permit activity which has not received Director approval.
